

# NeuroAudit

Intelligent Patch Driving Instant Cognitive Boost

INNOVATIVE TECHNOLOGY BASED ON ULTRASOUND STIMULUS TO DRIVE INSTANT COGNITIVE BOOST TO IMPROVE THE LIVES OF THE ALZHEIMER PATIENTS

- Neuro patch device based on daily care use
- Improve an instant cognitive boost

## NeuroAudit Solution

- Innovative stimulation via “Blood conduction”
- The smallest and lightweight ultrasound device
- Based on LFUS (Low-Frequency Ultrasound)
- Improving Instant cognitive boost

## Alzheimer Diseases Challenge

According to the International Alzheimer's Organization, there is an estimated increase in the number of people with dementia from 2020–to 2050

World older population is more likely to develop Alzheimer's disease. Number of people with dementia by 2050 growth to 153,000,000 Million.

01.

**1 in 3** seniors dies of Alzheimer's or dementia

02.

The number of people with Alzheimer's **will double in 20 years**

03.

People with Alzheimer's in the US will **double to 13 million by 2040**

## Value Proposition

# What Does it Mean?

### SAVING LIVES

NeuroAudit minimizes treatment costs and enables more intelligent routing. Simple daily deep treatment with the patch can significantly drop treatment cost rates.

### SAVING MONEY

Improving cognition with daily available technology affects people's lives and saves money.

### MAKING MONEY

NeuroAudit is helping Alzheimer's population using innovative products as a promising home daily care treatment

## Key Factors

# Investment Thesis

### Market

- Case of dementia every 3 seconds
- The cost of dementia in 2020 is over US\$1 trillion.
- Number of people with dementia growth to 153,000,000 Million by 2050

### Solution

- Simple use (Operations and works independently)
- Technology innovation based on "Blood conduction"
- Using a unique modulate to improve certain cognitive

### Forecast

- 6 months from the project 10,000 units introduction sales
- After additional 18 months quantities of 200,000 to 350,000

### Model

- B2B Model
- Initial customers - large Pharma & potential dealers

## Innovation Awards

Most innovative Neurotechnology company 2022

Neurotechnology innovation specialists 2022
